Bedding Box

Steel Unlimited, Inc. takes pride in manufacturing high quality products with superior workmanship. Our bedding boxes are no exception. Built and reinforced with heavy steel, our bedding boxes are strong, durable, and made to endure hard use on the construction site. Bedding Boxes eliminate the waste of expensive bedding material while maximizing equipment efficiency at the job site. The loader operator remains productive, with no wasted time waiting to load and place bedding material in the trench. The loader is free to perform other job site tasks while occasionally restocking the Bedding Box. Utilizing a Steel Unlimited, Inc. Bedding Box behind the excavator allows material to be easily retrieved and placed efficiently in the trench, precisely when and where needed. material quickly, with no waste.

Bedding Box Features:

- High-tensile steel construction for extra-long service life
- High-strength HD steel bottom and ends minimize routine bucket-contact wear and tear
- High-strength tubular frame for durability and structural integrity
- Skid bottoms (standard) reduce wear from dragging and walking movement
- Radius-pipe skid bar reduces material accumulation (plowing effect) while pushing forward
- Lifting/pulling lugs (standard) for easy sling attachment and box movement
- Sloped Ends for efficient bucket access and retrieval of bedding material
- Lift/walk bars (standard) for added mobility and ease of handling with the excavator.
